摘要: 介绍了制备中温固体氧化物燃料电池(SOFC)薄膜的各种工艺方法及制备中温单电池(PEN)的复合工艺。

关键词: 中温固体氧化物燃料电池; 平板式 PEN; 制备方法

中图分类号: TM911.4 文献标识码: A 文章编号: 1001-1579(2004)01-0059-03

## Development of fabrication methods for solid oxide fuel cell

Huazhong University of Science and Technology, Wuhan, Hubei 430074, China)

**Abstract:** Different fabrication methods for intermediate temperature solid oxide fuel cell were introduced, several preparation technologies for single cell were also introduced.

**Key words:** intermediate temperature solid oxide fuel cell; planar positive-electrolyte-negative; processing
