

R6 纸板电池测粉量机的设计

刘少峰

(广州虎头电池公司, 广东 广州 510655)

摘要: 电芯成型质量稳定性是影响电池质量的决定性因素。该机利用测粉量装置对电芯成型的质量进行实时监控, 并对不合格品自动剔除, 减少废品, 保证电池产品的质量。

关键词: 纸板电池; 电芯; 压力传感器; 自动剔除

Design of cathode mix weighing machine for R6 paper-lined battery

LIU Shao-feng

(Guangzhou Tiger Head Battery Company, Guangzhou, Guangdong 510655, China)

Abstract: Stability of the weight of cathode mix was the important factor of battery to control the quality. The new machine checked the weight of cathode mix on production line, rejected the unspecified parts automatically.

Key words: paper-lined battery; cathode mix; pressure sensor; reject automatically
