Technology of continuous punching of six-angle zinc pellets

RUAN Guo-wen

(Guangzhou Tengye Zinc Material Co., Ltd., Guangzhou, Guangdong 510220, China)

Abstract: Six-angle zinc pellet could replace the traditional round zinc cake to make zinc can. Compared with the round zinc cake, it had marked benefit in efficiency and economy and to promote this technology in battery industry.

Key words: continuous punching; six-angle zinc pellet; zinc can
